## Data logging and archiving

The 6100E Series recorder has internal Flash memory for secure data storage. It is also able to accept various removable media types (Compact Flash or USB memory stick). Data stored within the internal memory can be archived to the removable media on demand or at preset intervals. The 6100E will give indication of how long its internal memory and that of the removable media installed will last according to the configuration of the recorder.

All 6000s have Ethernet capability. The 6100E can be configured to archive to the removable media and/or over Ethernet. Archiving files over Ethernet effectively gives a secure, infinite archiving capacity.

Approximate duration for continuous recording of one group of six channels, high compression:

Archive media	Sample rate				
	1s	5s	10s	30s	60s
8Mb Internal Flash (approx. 1 million samples)	5.65 days	28.25 days	56.5 days	1.68 yrs	3.40 yrs
64Mb CF Card or USB memory stick (approx. 8 million samples)	45.3 days	226 days	1.2 yrs	3.7 yrs	7.4 yrs
256Mb CF Card or USB memory stick (approx. 32 million samples)	181 days	2.4 yrs	4.9 yrs	14.8 yrs	20 yrs
1Gb CF Card or USB memory stick (approx. 125 million samples)	1.9 yrs	9.6 yrs	19 yrs	58 yrs	116 yrs
Ethernet (FTP Server)		Infinite			

## Time synchronisation (SNTP)

The 6000 Series support Simple Network Time Protocol which, when enabled, updates the instrument time every 15 minutes from the configured SNTP server. The unit can also act as a Unicast SNTP server on the network, allowing client instruments to synchronise with the 6100E to a resolution of one millisecond.

## Virtual channels

The 6100E virtual channel option provides 12 channels to which can be assigned any of the following math functions: add, subtract, multiply, divide, constant, group, max, channel min, channel max, channel avg., rolling avg. Additionally, any virtual channel can be assigned as a totaliser or counter.

The 12 virtual channels can be made up from a mixed combination of math functions, totalisers and counters.

## Language support

The 6100e supports, as standard, the following languages: English, Spanish, German, French, Italian, Portugese, Japanese and Dutch.
